STOCK CAR RACING FANS IN THE APPOMATTOX CONCORD AREA will have a chance to take a first hand look at a super speedway stock car when WINSTON NO. 1 Dodge Charger is shown at Wilbun's Market on September 16 and at Big Horn Market in Concord on September 17.

WINSTON NO. 1 is a race-ready Dodge, stock built by the legendary Petty Enterprises' racing shop in Randleman, N.C.

Every detail that goes into making Petty's cars some of the top competitors on the WINSTON CUP circuit has been incorporated into WINSTON NO. 1.

It, unlike so many show cars, is not just a vehicle painted to look like a race car, but a finely prepared piece of machinery capable of speeds approaching 200 miles per hour on the high banked ovals of Daytona and Talladega.

The red, white and gold stocker has a powerful 355 cubic inch small block V-8 engine under the hood and produces 500+ horsepower at 7500 rpm. The engine has a bore of 4.040 and a stroke of 3.460. Its compression ratio is 12.5-1.

In addition to appearing at local stores and shopping centers, the WINSTON NO. 1 car can be seen at all of the WINSTON CUP and Winston West races this season.

C. T. MOSES, JR., OF MOSES MOTOR COMPANY, Appomattox, Chevrolet dealership, and his wife get their first look at the 1977 Chevrolet Caprice Classic in San Francisco where some 6,000 dealers and dealership sales executives were attending the auto maker's national convention this month in the California city. Moses is a National Dealer Council representative from his area and acts as a spokesman on regional Dealer Council matters for 115 Chevrolet dealers in the Richmond zone covering two-thirds of Virginia and part of North Carolina. The new Chevrolet Caprice and Impala models will go on display publicly September 30 at dealerships.

Celebrates Birthday

Members of the Appomattox Church of God of Prophecy would like to take this opportunity to tell everyone how glad we are to have Brother Edward Atkins, Jr. for our pastor another year.

On Sunday August 8th to show our appreciation for him, the members and friends honored Brother Atkins birthday by presenting him with a large birthday cake and as he stood in the front of the church, everyone marched by and pinned money on his coat, while Sister Atkins stood by him with a big smile deciding which piece of cake was hers.

Brother and Sister Atkins and there six children are a great blessing to our church. God is really blessing us and under their leadership, we are now building a new church here in Appomattox on road 1010. We hope to move into it by spring.

More Pork Next Fall

Consumers will find greater supplies of pork available at the meat counter the latter part of 1976. Producers sharply cut back pork production during late 1974 and through most of 1975 because of record high expense for feed grains. Following the excellent 1975 harvest, grain prices fell, making pork production more economically feasible. Producers began increasing hog production in late 1975, but because nature requires three months, three weeks and three days for a hog to be born and some five months for it to reach market size, the increased production will not be noticed in the retail market until late 1976.

THE WISDOM CORNER

It only takes a minute
To say a word of cheer;
It only takes a minute
To dry a falling tear;
It only takes a minute
To lend a helping hand;
It only takes a minute
To try and understand;

It only takes a minute
To make and keep a friend;
It only takes a minute
Some broken heart to mend;
It only takes a minute
To brighten someone's day;
The use this very minute
Before it slips away.

Q. My son's wife is probably the most charming spendthrift ever born. While I truly love her, I'd rather my son handled the money in their family. My problem is, does she automatically inherit half of whatever insurance money my son collects? He is my beneficiary.

* * *

A. What you leave your son in your will will be his. He is the one the insurance company must pay. She can get part of the money only if he gives it to her. But if your son decides to indulge her a bit, don't worry. By then, perhaps your daughter-in-law may have become a savvy bargain hunter.

Concord TOPS News

On Aug. 30, 1976 the weekly meeting of TOPS (Take Off Pounds Sensibly) was held. A lot of business was discussed. The organization voted to order and sell aluminum handled knives as a money-making project. Anyone interested in buying or seeing a knife contact any of the Concord TOPS members.

The best loser of the week was Bobby Foster with a loss of 4 lbs. Mrs. Kathleen Garlick was runner-up with a 1 lb, loss. Jean Totty came back and rejoined the club. She had a surprisingly good loss of 9¾ pounds since her last visit in December of last year. David Gunter is our third man in the organization. He joined with his sister, Jean Totty. Everyone was glad to have them both. The best is saved until last, for the first time since our organization was formed in Concord we had a no gain meeting. Everyone tried hard last week and it paid off. Congratulation to all members.

The next meeting will be held at Love Foster's home on Rt. 24 every Monday night. Weigh in 6:30 - Meeting 7:00.

Remember, wishing won't make it so. That's a famous saying everyone has heard at sometime or another in his or her life. As far as weight reduction goes wishing does not help at all. Pure old determination is the only solution to the problem. Everyone wishes for something sometimes and sometimes they get their wish but excess weight will not disappear just on a wish. Hard work, determination and will power, is the only way to be a slim, trim and attractive person. At the August 23rd meeting of TOPS, Sandra Martin returned after a 3-month's absence. We are glad to have her back. Edna Joy was our best loser of the week with a loss of 7½ lbs. Calvin McGahuey was the runner-up with a 4 lb. loss. There are a lot of incentives to help the members to lose weight in the TOPS organization. Calvin gave a talk on goals. He has set a personal goal and says we should do the same. Everyone needs something to look forward to when there is a long way to go. A goal no matter how small is worth the effort.

Please if you need to lose a few pounds or a lot, come to the meetings, everyone is welcome. You may have something to lose. TOPS news submitted to Faye Bryant, Concord news reporter, by Lois Smith, TOPS news reporter.

UNDERSTANDING ALCOHOLISM

a health column from the
Alcohol, Drug Abuse, and Mental Health Administration
U.S. Department of Health, Education, and Welfare

Alcohol: The Challenge Remains

The National Institute on Alcohol Abuse and Alcoholism has just celebrated the fifth anniversary of the landmark legislation that inaugurated the major Federal thrust in the alcoholism field: the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act, signed into law on New York's Eve 1970.

Since the Institute became operational, its goal has been to give alcoholic persons a new start and to enable them to regain their dignity by once more becoming productive and self-reliant. In working to achieve this goal, NIAAA has fostered the development of treatment and rehabilitation services at the community level throughout the nation.

Although treatment has been the principal goal of the Federal alcoholism effort, alcoholism—like other illnesses—cannot be eradicated merely by treating its casualties. Accordingly, NIAAA has been working to stop alcoholism before it starts. It has mobilized public education and prevention programs which seek to instill within the American public the concept that alcohol abuse is a serious matter which demands the cultivation of a strong sense of responsibility to self and society.

Tens of millions of individuals and families are directly or indirectly affected by the nine million alcoholic persons in the United States. Alcohol abusers shorten their lives by ten to 12 years, and their lives are plagued by many forms of unhappiness: illness, family problems, poverty. Alcoholism is the nation's number one drug problem.

Significant advances have been registered over the five years since the signing of the Comprehensive Act. As it moves into 1976, the Institute can look back on a long list of significant accomplishments in fulfilling its original Congressional mandate—but the challenge remains.
